Dear David,

11/15/74

If I don't acknowledge your 11/8 it may get lost. Thanks.

If this is the guy who was on the Tomorrow Show a couple of weeks ago, those I consider nuts believed him crazy. I knew it was to be aired byt I was in Memphis to work and work I did. Day and night.

If I hadn't seen so much crap in Tatler I might have been in touch with Moulder for a bid on the ancillary rights to WHITEWASH IV, pub date of which is a week from today.

No, not because it is the anniversary.

Keyed to Congressional effort to override Ford's veto of the amendments to the FOI law.

If Moulder has any interest in this and pays enough to make it worthwhile, I've had my experiences with FOI and the feds!

Esp. if it were in interview form. And not thereafter altered.

We made a good record in the Ray hearing. There is much work yet to be done, only one of the reasons I'm more pressed for time than usual.

The cassettte reminds me of good intentions. I have a recorder some fuzz once intercepted and fixed so it could not be depended upon to record. I've gotta get either a lighter cord or fresh batteries for it so I can listen to tapes while I drive.

At my pace and age, it is an indulgence for which I can't take ether time.

Thanks much.

By the way, the printer hasn't yet delivered the books!

Sincerely,

Harold
